The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments	Drenched	01/05/2025	Flukazole C	
	Vaccinated	01/05/2025	Ultravac 5 In 1	Booster
	Vaccinated	01/05/2025	Selovin LA	Booster
Vendor Comments	A regrettable continuation of selling core herd numbers due to the very dry conditions. Cows are proven consistent breeders, large framed females that will be big cows when fat, in calf to very good Booroomooka & Eastern Plains Angus Bulls.			
Joining Details	Station Mated bulls put in: 01/10/2025 bulls taken out: 26/11/2025 (57 days) Bull Breed(s): Registered Angus Bull IDs: NGM23U166, NGM23U945, NGM23U217, NGM21S988, NGM21S230, NGM21S616, NGM21S891, NGM21S149, NEP21S891, NEP21S39. To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.			
Preg Tested?	Yes, this lot was pregnancy tested, by Daniel Cheers (Non-Vet Contractor) on 08/05/2026. 58 Head (100%) PTIC, from 5.5 to 7.5 months (at time of assessment 12/05/2026). Certificate Available.			
Pregnancy Terms	Vendor Terms apply. Tolerance: 10% Timeframe: 14 days			
Temperament	Yards	Crush	Paddock	
	Quiet: 58 head	Quiet: 57 head Slightly Stirry: 1 head	Temperament not assessed in Paddock	
	Cows had good temperaments and were a pleasure to handle especially out in small holding paddock, Cattle responded and handled very well to dogs as well.			
Handled With	Bikes , Dogs			
Notable Traits	Traits 1 Head White markings past navel			
Assessor Comments	A Great opportunity to capitalize on very soften market due to the current sell off from these dry conditions here in Northern NSW. On offer is 176 PTIC Cows selling over 4 lots from RV7 Herd, This herd went into a rebuild stage Approximately 3 years ago when a lot of these cows were purchased off Auctions plus out of the New England area from reputable angus herds. The tough continued dry seasonal conditions coming into winter see's a very regrettable sale of these consistent proven breeders. Cows are big framed females that present in forward store to store condition. Cows have been joined over a tight 8 week period and will start calving approximately from early July onwards. Cows were pregnancy tested in February and again last Friday for buyer reassurance. Cows were joined to a quality selection of predominately Booroomooka bulls. This group of females offers a great opportunity to purchase breeding units that offer a great two way split in to the future.			
Assessor	Steve Daley (Level 1 Accredited)			
Delivery Period	18/05/2026 to 20/05/2026 (3 days)
