Temperament	Yards	Crush	Paddock
	Quiet: 34 head	Quiet: 34 head	Temperament not assessed in Paddock
	Cows had great temperaments and were a pleasure to handle especially out in small holding paddock, Cattle responded and handled very well to dogs as well.		
Handled With	Bikes , Dogs		
Notable Traits	Traits 5 Head Old pink eye scarring in one eye		
Assessor Comments	A Great opportunity to capitalize on very soften market due to the current sell off from these dry conditions here in Northern NSW. On offer is 176 PTIC Cows selling over 4 lots from RV7 Herd, This herd went into a rebuild stage Approximately 3 years ago when a lot of these cows were purchased off Auctions plus out of the New England area from reputable angus herds. The tough continued dry seasonal conditions coming into winter see's a very regrettable sale of these consistent proven breeders. Cows are big framed females that present in forward store to store condition. Cows have been joined over a tight 8 week period and will start calving approximately from early July onwards. Cows were pregnancy tested in February and again last Friday for buyer reassurance. Cows were joined to a quality selection of predominately Booroomooka bulls. This group of females offers a great opportunity to start a new herd with or breeding units that offer a great two way split in to the future.
