	Quiet: 24 head		Quiet: 24 head	Quiet: 24 head
	These Angus X Angus PTIC mature cows are seriously quiet and very easy to handle			
Handled With	Bikes , Dogs , Horses , On foot , Vehicles			
Assessor Comments	24 Angus X Angus PTIC Cows joined to Tivoli Angus bulls. These cows exhibit great weight for age, structure, length and are proven breeders. They are to calve commencing late June for an 8 week window. The cows have returned to dry native pastures where they have been averaging 0.4kg ADG. The cows weighed 516kg - 860kg to average 667kg FULL. Preg tested by Alana Wade from 'Elite Genetics' vet and can supply a certificate on request. Bull bloodlines are Tivoli Angus. Vendors purchase their bulls based on a balance of postive IMF, 200 day growth, postive EMA and calving ease producing progeny that will provide a greater carcass for eating quality. These cows are in forward/store condition and present a great buying opportunity for the buyer to calve down to increase their breeding numbers. Cows that were mouthed all had sound mouths. Please note 3 small white patches on udder, one partially blue eye and some Noogoora burr in some tails. Please note there are 2 other lots from the vendor.			
Assessor	Jim Blain (Level 3 Accredited)
