	Quiet: 26 head		Quiet: 26 head	Quiet: 26 head
	These Angus X Angus PTIC heifers are seriously quiet and very easy to handle			
Handled With	Bikes , Dogs , Horses , On foot , Vehicles			
Assessor Comments	26 Angus X Angus PTIC Heifers, 14 were AI'D to Paratrooper and 12 joined to Tivoli So Right U57. Tivoli So Right U57 has a low birth weight (3.3) EMA 11.3, positive fat and an IMF of 4.8. The AI'd heifers are to calve late June, the natural heifers a month later until late August. These are sensational heifers that exhibit great weight for age, structure and length. These heifers have returned to dry native pastures where they have been averaging 0.4kg ADG. The cows weighed 510kg - 662kg to average 572kg FULL. Preg tested by Alana Wade from 'Elite Genetics' and can supply a certificate on request. Vendors purchase their bulls based on a balance of postive IMF, 200 day growth, postive EMA and calving ease producing progeny that will provide a greater carcass for eating quality. These heifers are in forward condition and present a great buying opportunity for the buyer to calve down to increase their breeding numbers while injecting some excellent quality into their herd. Cows that were mouthed ranged from 0 - 2 teeth and all healthy in the mouth. Please note 16 of the heifers can be kept as EU. Theres a total of 6 decks over 3 lots in this sale if interested.			
Assessor	Jim Blain (Level 3 Accredited)
