			Paddock
			Docile: 27 head
	Overall the Wallace's have very well handled herd, they present in great order and are very quiet and easy to work with. These young Cows are no exception, drafted off and moved with ease around they yards and up to the crush, stood calmly for assessment and photos/videos. Only had difficulty with one Cow in this group who needed a replacement NLIS tag and was unsettled in the head bail but show no signs off aggression and walked out of the crush and settled immediately.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	27 PTIC Angus 3rd & 4th Calving Cows. The Complete dispersal of B & G Wallace's breeding herd. A fantastic opportunity to secure a line of very Quiet moderate to large framed PTIC Angus Cows that are predominantly Leawood and Innesdale Angus blood. These Cows are due to begin calving on the 1st of July 2026 to Leawood Angus Stud Bulls. These Cows are only being offered for sale due to the vendors change of operation. Year on year the Wallace's progeny are well sought after in local store markets by repeat buyers. This line of young cows provide a fantastic opportunity for any purchaser to inject some quality, well-bred, quiet breeders into their existing herd or a fantastic base to start a new program. A recommended buying opportunity. Please see attached photos for Cows with a splash of white on their udders. Please note Vendor has other lots in this sale.
