	Overall the Wallace's have very well handled herd, they present in great order and are very quiet and easy to work with. These Heifers are no exception, drafted off and moved with ease around they yards and up to the crush, stood calmly for assessment and photos/videos. Had no difficulty with any of the Heifers in this group.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	12 PTIC Angus Heifers. The Complete dispersal of B & G Wallace's breeding herd. A fantastic opportunity to secure a line of very Quiet moderate to large framed PTIC Angus Heifers that are predominantly Leawood and Innesdale Angus blood. These Heifers are due to begin calving on the 1st of July 2026 to Leawood Angus Stud Bulls. These Heifers are only being offered for sale due to the vendors change of operation. Year on year the Wallace's progeny are well sought after in local store markets by repeat buyers. This line of heifers provide a fantastic opportunity for any purchaser to inject some quality, well-bred, quiet Heifers to their existing herd or a fantastic base to start a new program. A recommended buying opportunity. Please see attached photos for Heifers with a splash of white on their udders. Please note Vendor has other lots in this sale.
