	Heifers were respectful in the yards at all times. They were quick to handle through the race, with the odd one becoming fractious when confined. All heifers had settled in the mob when video was taken following assessment. Assessed on a cold and windy day.				
Handled With	Bikes , Dogs , On foot , Vehicles				
Assessor Comments	A smart line of PTIC Angus heifers. Heifers have been joined and pregnancy tested to calve over a 15 day calving window, to quality Fullblood Wagyu bulls. They have been Preg tested to commence calving on the third of September. The vendor has selected quality Angus genetics to breed these heifers and they are joined to Wagyu bulls selected for carcass traits along with calving ease. 8 heifers were noted with slight eye scarring in single eyes, and 6 were noted with slight white patches in the udder area.
