Assessor Comments	"GENUINE HERD DISPERSAL". An outstanding line of 4.8 - 7.8 year old well bred hybrid vigour PTIC Cows present. Cows have been joined to an even split of Angus, Shorthorn and Black Simmental sires. Vendor has been focusing on breeding off spring that best suits feedlot markets. The Webb family cattle are highly sort after by many feedlots across NSW. Bloodlines descend from both Tangley Angus and Turonville Shorthorns. Cows that have never been assisted while calving, and have handled the tougher seasons in their lifetime. Regretful sale due to tight season. Highly recommend. As sold run out the gate (106hd in draft). Vendor has another draft of 2 lots in sale. Opportunity to put together 3 B-doubles of PTIC cows.
