Assessor Comments	As part of the complete herd dispersal these are a neat line of 9.5 to 10.5 y/o cows that have shown themselves to be productive, good mothers. They are in calf to top quality Rennylea bulls and formed the base of the herd. They have had a calf every year and hold up very well for their age as is shown by their weights and condition .They had calves weaned in February and continue to freshen up of good feed. There are 4 across the 22 that have slight blue eyes with examples in the photos.
