Assessor Comments	As part of the complete herd dispersal these are a great line of 2nd calvers that have shown themselves to be good mothers and easy to handle. The Rennylea Bulls have given the herd solid frame and structure and with consistent classing the temperament has produced a line of easy care productive cows. The had calves weaned in February and continue to freshen up of good feed. They would be a great mob to improve a herd or start with. The effort and expense that has been put into the herd is there for the taking and they will not disappoint. These 40 are part of a complete drop of 60 blue tags that will delivered on a run out the gate basis. There are 7 across the 60 hd that have slight blue eyes as shown in the photos.
