Assessor Comments	On offer is a good line of PTIC Angus Cows rising 7-year-old. These cows are joined to pure Rennylea sires, Q1366 & Q853 and approx. due to commence calving mid-June. Females were purchased as young breeders, from two pure Rennylea blood herds and have grown out to produce top quality calves, which are either sold as feeders or grown out to kill cattle in grass fed program. This herd is only being offered due to dry seasonal conditions and minimal dam water supply. These cows show good temperaments and were very good to handle. Please note: two cows with white on udder.
