Assessor Comments	Outstanding line of young PTIC Rennylea Angus cows to calve in August/ September. They are in calf to elite Rennylea Bulls - please take your time to review the sire links attached. The Skinners are very passionate Angus breeders and have been using AI throughout the herd for the past 9 years to turbo charge genetic gain. Selection pressure is placed on every female with a hard-line approach to culling on visual, structural soundness, temperament as well as genomics (heifer select) in the last 5 years. Steers from this herd have won multiple awards including most recently coming first at Beef 2024 National Beef Carcase Competition. This is a truly exciting opportunity to purchase young females from an elite breeding program and would suit the most discerning Angus breeder.
