| Assessor Comments      | Outstanding line of PTIC Rennylea Angus heifers to calve in July/ August. The majority are in calf to elite AI site RENNYLEA U563, a real curve bender being low BWT, top 3% across 200/400/600 growth and +6.1 for IMF (top 2%) - please take the time to see sire link attached. Please also note the additional joining details. The Skinners are very passionate Angus breeders and have been using AI throughout the herd for the past 9 years to turbo charge genetic gain. Selection pressure is placed on every female with a hard-line approach to culling on visual, structural soundness, temperament as well as genomics (heifer select) in the last 5 years. Steers from this herd have won multiple awards including most recently coming first at Beef 2024 National Beef Carcase Competition. This is a truly exciting opportunity to purchase young females from an elite breeding program and would suit the most discerning Angus breeder. |                |                |
