	I've spent many hours/days with these cattle and found them to be generally very settled in the paddock. In the yards processing them for sale there were cows that didn't enjoy the confined spaces. Cows have been through yards constantly for the last week prepping for this sale.		
Handled With	On foot , Vehicles		
Notable Traits	Traits 3 Head Cloudy eye		
Assessor Comments	*Complete dispersal of Stecher Ag breeding herd.* Fantastic opportunity to secure young Angus cows that are predominantly Banquet blood (19 of 20) with sappy Feb-Apr Angus calves by Banquet and Rennylea sires. Females were purchased as weaners direct from breeders in the Western District (350 originally purchased and refined to 80) Cows have an extensive animal health history and only need to be paddocked on arrival. Male calves are still entire (Can be castrated if needed before departure) refer to documents for the list of mothered cows to calves. Last year's calves were all sold at Euroa's December special sale, steers topped \$2000 (47 av \$1883) heifers were a market high \$1640 (56 av \$1517). Cows have been observed actively cycling.
