Assessor Comments	These are a magnificent line of Team Te Mania majority ACR recorded (EBVs attached), EU Accredited, R Drop (2020) PTIC Cows, due to commence calving late August (estimated 2/3 are in calf to AI sires, see joining details). There are 80 head in the line to be sold in 4 lots of 20 head. The Toolong Herd has been a Progeny Test herd since the inception of Team Te Mania in 1995 & is a herd with an enviable industry reputation. These cows are demonstrating all the desirable attributes of the breed - being assessed as 100% quiet/docile, structurally correct, large framed with volume & depth of body. The herd has a proven track record of performance & high marbling, being a preferred supplier to Rangers Valley Feedlot. This is a truly outstanding opportunity to invest in some of the best commercial Angus genetics in the country. Please take the time to have a look at the joining sires (links attached). Genetics of this quality take years of breeding and come with my highest recommendation.
