Assessor Comments	Nice line of PTIC Angus Heifers. They present in ideal condition with good weight for age. These heifers were selected from weaner sales as high quality calves. No expense spared when sourcing the right article to be classed as future breeders. PTIC to low birth weight Angus sires. Joined for a mid September calving for a tight calving period. The hard work has been done with these future breeders. They will continue to grow out to medium/large frame cows under the right conditions. Please note there are three other lots by the vendor in the same sale.
