	Easy doing heifers that respected yards well when put under pressure. When assessing heifers flowed well through races with 3 becoming slightly stirry when mouthng. Heifers were good to photo after spending 24hrs in yards, preg tested and weigh all round good cattle to handle for persons with prior stock knowledge.			
Handled With	Bikes , Dogs , On foot , Vehicles			
Assessor Comments	43x PTIC Crossbred heifers, buyers a great opportunity presents itself with all hard work being already done. 2-5 months scanned up in calf these heifers are joined to 'Gates' & 'Texas' Angus bulls focusing on calving ease and LBW calves. Heifers have been running on native buffel country and only selling due to seasonal conditions otherwise would have been calved down. Buyers a great chance to secure easy to handle females to add back to a crossbred cow program, or to calve down and split later on.
