Assessor Comments	A Line of quality Te Mania Blood Angus Cows preg tested 5-6 months in calf to a True North Angus Bull. At assessment the cows weighed from 546-704kg to average 598kg with a projected delivery average of 568kg and present in a strong store condition. The Cows had weaners removed off them 2-3 weeks ago and are just starting to dry up. The extremely dry conditions have forced the vendor to completely destock his cow herd, this being the only reason why these genuine proven breeders are offered for sale. Please note the Vendor has a younger line of cows in the same sale.
