Vendor Comments

A very unfortunate regrettable sale due to the dry conditions, Cows were core part of the Clevedon F1 program. Quality bred females PTIC to quality Wagyu Genetics.

Assessor Comments	A good quality line Young 3 year old Angus PTIC EU cows. Vendor has their own Wagyu stud - Saumarez Wagyu and has been breeding F1's for quite some time, selling into JBS and Rangers valley for the annual sale of their F1 Feeders. Cows are in calf to a High indexing Wagyu bulls - Macquarie Wagyu T0078 (AI) and Carnana Station Michifuku T6136 and will approximately start calving from early July onwards. The Vendor bred cows are Bald Blair, Ben Nevis and Bridgewater Angus blood. These Young cows were apart of the core breeding group and are good large framed females. A Great opportunity to secure a good size line of EU cows that offer the added advantage of sleep less nights when calving comes around due to the wagyu factor and if your in the F1 breeding program these females will offer very saleable F1 progeny. Pease see another line of rising 2 year old PTIC Heifers from this same vendor in the same sale.								
Assessor	Steve Daley (Level 1 Accredited)
