Vendor Comments

A very unfortunate regrettable sale due to the dry conditions, Heifers were apart of the Clevedon F1 future breeding program. Quality bred females PTIC to quality Wagyu Genetics.

Joining Details

Station Mated bulls put in: 29/09/2025 bulls taken out: 24/11/2025 (57 days)

Quality Grades

	Very Good	45%	
	Good	55%	
Temperament	Yards	Crush	Paddock
	Quiet: 38 head Slightly Stirry: 2 head	Quiet: 37 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
Handled With	Overall cattle did handle well, A small majority of heifers were a little unsettled when confined but did settle once left alone. Bikes , Vehicles		
Notable Traits	Traits 3 Head Tinge of red through coat		
Assessor Comments	A good quality line EU Vendor Bred Angus PTIC heifers. Vendor has their own Wagyu stud - Saumarez Wagyu and has been breeding F1's for quite some time, selling into JBS and Rangers valley for the annual sale of their F1 Feeders. Heifers are in calf to a High indexing Saumarez Wagyu bulls and will approximately start calving from early July onwards. Heifers are bred from a quality Angus herd of females that are foundation of Bald Blair, Ben Nevis, Bridgewater and Swanbrook Angus Genetics. These heifers are well grown for their age and have all the attributes you want and need in a future breeder, Softness and Frame. A Great opportunity to secure a good size line of EU Heifers that offer the added advantage of sleep less nights when calving comes around due to the wagyu factor and if your in the F1 breeding program these heifers will offer very saleable F1 progeny. Pease see another line of 3 year old PTIC Cows from this same vendor in the same sale		
Assessor	Steve Daley (Level 1 Accredited)
