Vendor Comments

A reluctant sale of cows due to dry conditions. These breeders represent years of breeding for structure, maternal traits and carcase quality. Joined to Reg Baringa Angus bulls bred from some of the best genetics available from here & the U.S.

Joining Details

Station Mated bulls put in: 02/11/2025 bulls taken out: 13/01/2026 (73 days)

	These Young cows had great temperaments and flowed through the process with ease in.		
Handled With	Bikes		
Notable Traits	Traits		
	3 Head Old pink eye scarring in one eye		
Assessor Comments	An outstanding line of very well bred EU Angus front paddock Breeders. The Baringa bloodline descends from Glenavon angus, Outside genetics are imported through an annual AI program and careful purchases from like minded studs. Baringa's breeding objective is to produce easy care, moderate, docile, fertile cattle that excel in structure, calving ease, growth, carcase and maternal traits. Baringa steers are tested annually in the NSW Beef Spectacular feedlot trial and other carcase competitions. These steers have picked up numerous carcass and MSA awards. These young PTIC cows are a good reflection of Baringa genetics and should be expected to produce excellent results. They are some of the core herd and are only being sold due to the continuing dry conditions. . Cows were joined over a tight 8 week period & due to calve from late July onwards to Quality Baringa Angus bulls. Excellent soft easy doing large framed females that will preform, Don't Miss !!		
Assessor	Steve Daley (Level 1 Accredited) Phone: 0499 898 561
