Assessor Comments	A quality line of PTIC Angus heifers that are a regretful sale due to season conditions. Heifers were retained from the vendors quality cow herd with a portion purchased from a reputable New England cow herd based on Te Mania genetics. Heifers are safely in calf to Heart Rolls Royce V124(BW 2.4) selected as a heifer bull. Heifers are generally very good types showing good growth for age and confirmation. Heifers are true to type and present in ideal condition to calve. These heifers could grown into very nice females in the future given the right opportunity
