Assessor Comments	An outstanding line of 73x74 Angus cows and calves offered for genuine sale. Cows are 4–8 years old, presenting in good working condition and doing an excellent job on their calves. Calves are well grown, marked, and fully vaccinated at assessment, giving buyers confidence moving forward.Genetics are a strong feature of this line, with proven performance behind them. The herd has been using leading AI sires, along with carefully selected bulls sourced from reputable programs including Te Mania and Booroomooka Angus Studs.These cattle display the consistency, temperament, and maternal strength expected from quality Angus herd. Only offered for sale due to ongoing dry seasonal conditions.These cows and calves come with my highest recommendation and would suit breeders looking to add reliable, productive females to their herd. Please note, majority of the cows are 22 drop, with the age break up as following: 2018 drop 8hd, 2019 drop 3hd, 2020 drop 11 hd, 2021 drop 9 hd, 2022 drop 42hd
