Assessor Comments	Nice run of rising 4year-old cows that are 3rd calvers. Predominately these cows are Te Mania blood, and all were purchased off Autionsplus ex Blayney in May 2024. These cows were purchased to be kept as breeders but unfortunately due to the ongoing dry times in the Upper Hunter they are on the market. Cows were good to handle through the yards and calve from July to September. Please note the odd cow has some white on their udder and 1 has a blue spot in her eye however not active. Please refer to photos and videos for better descriptions. Also please note Nutrien Scone have another 163 Angus PTIC cows split into multiple lots that are in close proximity with similar calving times.
