	Heifers folded through facility with ease. Heifers had been in yards for 24 hours & were preg tested before arrival for assessment. They were weighed in race due to crush facility being too small. They became agitated at stages but was completely understandable with conditions they were assessed in. When photographing heifers were keen to move through gates to get to feed paddocks. At NO stage heifers became aggressive.			
Handled With	Bikes , Dogs , On foot , Vehicles			
Notable Traits	Traits 6 Head blue eye scarring in 1 eye. (Deemed very minor)			
Assessor Comments	A Tidy straight line of 2.5 to 3.5 year old, 2nd Calf Angus heifers, PTIC (2.5 - 5.5 months) to Gilmandyke Angus bulls, medium to large frame presenting in fresh forward/store to forward/prime condition with approx 35 red tags & 17 blue tags. These young cows are predominantly one mark and are proven breeders with already raising a calf that was able to hit the prime feeder markets. Property 'Yuringo' is up for sale which is the only reason these cows are hitting the market. OPPORTUNITY NOT TO BE MISSED as these heifers tick all the boxes and would enhance any intended purchasers breeding program for many years to come given the correct nutrition. "Young females are the future of the cattle industry".
