Handled With	These cows were a pleasure to work with throughout the yards. On foot , Vehicles		
Assessor Comments	A small but high quality offering of PTIC Hereford cows with over 50 years of breeding behind them. These ex stud females are only being offered due to a slight herd reduction. They have all the work done for you with health treatments and will calve Aug/September to Mawarra and Mawarra B Hereford bulls. The cows were great to handle through the yards, with the 2019 cow still showing a full mouth - refer photos. These females were bred with commercial relevance and functionality at front of mind and have calved down each year. They would be a great asset to any herd. Please note one female does have small horns. Vendor has another offering of PTIC heifers in the same sale.
