Assessor Comments	Genuine dispersal of the Pitson breeding herd to simplify the operation. No cows have been retained and all will be re-preg tested 23/04 to guarantee their status. Joined from the 16/10-15/12 to registered Rennylea sires (details in photos). The Pitson's have been purchasing Rennylea bulls for +10 years investing significantly in quality genetics. These cows are medium to large framed and have been managed with the intentions of retaining. They are presenting in their working clothes and running on a rising plane of nutrition. These cows are rising 3 years old and all reared a live calf last year to remain in the herd. They have a long productive life ahead of them. Anything deemed not presentable in the line was removed at assessment. Vendor is offering 180 PTIC cows as well the weaners off these cows in today's sale. Presenting the opportunity to secure a decent line of quality breeders cows that don't often come to the market. Should you require any further information please call.
