Notable Traits	Traits
	4 Head Slight blue eyes not active
Assessor Comments	Excellent quality draft of steers all weighed in a tight weight range of 300-370 kg in which 320 in the run to be sold as 3 even runs out the gate. These steers have been in containment pens on grain ration which will make for a very easy transition into any other feedlot or would still have plenty of scope to put back on grass with all the hard work having been done and a large tail being removed from mob. The Yammatee cattle are highly sought after by several major feedlots in the Eastern States and have a great reputation for their very good doing ability.
