	Steers handled well considering they have only been weaned 10 days, and had minimal handling prior. They were drafted		

twice, once off their sisters, and then again off the lighter brothers. Each time becoming more settled and less reactive. Steers that showed a very quick understanding whilst drafting, and will certainly quieten down even more with further education and handling.

Handled With Bikes , Dogs , On foot , Vehicles

Notable Traits

Traits

1 Head Fresh pink eye (Treated and to be checked before delivery)

Assessor Comments

Young, pure Llandarlo blood steers with excellent growth for age, many tipping the scales past the 400kg mark, only being 11-12 mths of age, and have not been blessed with the most forgiving seasons in the Upper Murray! These steers are all frame, with a huge amount of bone, great length and plenty of depth - Built to be absolute meat machines! Weaned up, and ready to fly ahead on some fresh Autumn pastures. An ideal line of steers for a buyer wanting to take them through to the Spring and hit some big weights.
