	Quiet: 4 head Slightly Stirry: 3 head Steers handled quite well, a couple in the mob still a bit anxious, and wanting to rush through gateways away from the pressure, but had only been weaned 10 days at time of assessment. Improved throughout handling, and were drafted twice, once to take off their sisters and again to separate steers. All steers improved throughout this process, and will continue to improve with more handling and further education.	Quiet: 3 head Slightly Stirry: 4 head	Temperament not assessed in Paddock
Handled With	Bikes , Dogs , On foot , Vehicles		
Notable Traits	Traits 1 Head Small minor eye blemish 1 Head White splash up to the navel		
Assessor Comments	Young, pure Llandarlo blood steers with good growth for age, especially as they have not been blessed with the most forgiving seasons in the Upper Murray! These steers are all frame, with excellent bone, great length and plenty of depth - Built to grow out and carry a stack of weight. Weaned up, and ready to fly ahead on some fresh Autumn pastures. An ideal line of steers for a buyer wanting to take them through to the Spring and hit some big weights.
