	Excellent temperament on these cattle and they have been very well handled.		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits		
	10 Head Slight ringworm		
Assessor Comments	This is a classy line of future breeder EU Angus Heifers. They could have easily been retained and joined into the Carcoola Herd. They are extremely well bred, very quiet and good to handle. Vendor has been using the very best genetics he can find, always striving to improve the herd, no expense has been spared on genetics. AI has been used extensively in the herd over a number of years. Landfall New Ground and last year Woodhill Comstock was used and sired some of these heifer calves. The Mundoo heifers were purchased out of the January Naracoorte Feature weaner sale as part of the complete drop of heifers. They come highly recommended and would be suitable for a June joining if desired.
