Assessor Comments	Quality line of young angus weaned heifers that display their depth of breeding with ample bone, depth of body and thickness. A very neat draft of heifers that have tremendous weight for age with the potential to grow out to future breeders. A very impressive line of front paddock calves that we suit many markets as they mature. There are 4 heifers that have breed acceptable white on the udder and 1 heifer had a cloudy eye at assessment that the vendor treated with Orbenin cream. All heifer calves were vaccinated with 7 in 1 at calf marking. * Note, the vendor has 4 lines on offer in this sale with no calves retained of either sex.
