Assessor Comments	Good line of Angus heifers to put away. Vendor bred, grain and antibiotic free. Ideally suited to grow out to join or to feedlot entry weights or heavy domestic kill weights. Knowla Angus genetics have been used in the herd focusing on performance and confirmation. Vaccinated with 2 shots of 7 in1 and a multimin, LWR at assessment 200-286kg to avg 223kg at assessment after overnight curfew. Good quality, quiet heifers to grow out. Heifers were weaned 2 months ago and handled extensively. Plenty of breeding in these quality young heifers. Great cattle to grow out.
