Assessor Comments	Excellent quality draft of heifers all weighed in a tight weight range of 320-400 kg in which there are 300 in the run to be sold as 3 even runs out the gate. These heifers have been in containment pens on grain ration which will make for a very easy transition into any other feedlot or would still adjust back into a grass program with all the hard work having been done and a large tail being removed from mob. The Yammatree cattle are highly sought after by several major feedlots in the Eastern States and have a great reputation for their very good doing ability.
