Handled With	Bikes , On foot , Vehicles			
Assessor Comments	A quality line of 35 Angus yearling heifers offered from the renowned Lake Midgeon program. These are genuine April/May 2025 drop heifers, representing the complete Autumn drop, and averaged an impressive 351.9kg curfewed at assessment, demonstrating outstanding growth and performance for age. These heifers are the type Lake Midgeon has been striving to produce; thick, moderate framed females with plenty of shape, softness and capacity. All are sired by top end Tattykeel Angus bulls and out of Tattykeel blood cows, ensuring proven maternal and carcass genetics throughout the draft. These heifers present an excellent opportunity for producers seeking future breeders, with the ideal age and maturity to join early Spring to the bull of their choice. Alternatively, their weight, growth and genetic background make them well suited to a feedlot program. Please note the entire August/ September drop heifers are also available in this weeks sale, 63 head.			
Assessor	Craig Pellow (Level 2 Accredited)			
Delivery Period	06/06/2026 to 15/06/2026 (10 days)
