Assessor Comments	Due to the tougher seasonal conditions in the area, an opportunity has presented to purchase a line of store condition Hereford Heifers. Heifers are from an Injemira and Wirruna blood infused herd and show good pigmentation, long smooth bodies and hooded eyes; very true to type Hereford features. Bulls are selected with a focus on temperament, feet, depth and length of the body, with these heifers being a prime example of all. These Heifers present in healthy store condition displaying the phenotype and bone structure that would be ideal to target multiple avenues such as the trade, feedlot or export markets or to add to a breeding program and join to a bull of your choice. This is a fantastic opportunity to purchase a well bred draft of Hereford Heifers. 5 heifer presenting with an old eye scar, not deemed detrimental. BUYERS NOTE: Vendor has another lot of 20 steers in the same sale. Perfect opportunity to purchase a run of quality Hereford cattle from the same operation.
