Assessor Comments	Millbrook Farms of Alexandra are offering a tremendous draft of their 2025 Autumn born Hereford X Steers with no expenses spared when it comes to genetics. These animals have had access to an Irwins Weaner Mix for approximately 80 days along with roughage & a variety of natural pastures. Millbrook Farms have always strived to purchase some of the best bulls Yavenvale Herefords have to offer & It has been extremely evident during this process as to how well these Steers have performed in our climate. According to induction data & weighing at assessment, we have seen ADG's of 1.5kg - 2.2kg to average 1.70kg. Ideal animals to continue on in an intensive feeding program or to return to pasture for an export fattening regime at a later date.
