Assessor Comments	The annual sale of Camilee September & October drop Angus steers. All of these calves have been weighed full at assessment 220kg - 338kg and averaged 256kg. Being weaned since March and handled regularly these steers are the ideal article for a spring trade to background or grow into bullocks. The Camilee herd have been bred for structure, growth and performance. Camilee herd is based on Millah Murrah cows and joined to Stoney Point & Nampara Sires. Bulls selected are high in 200 day & 400 day growth figures as well as structurally sound. Steers that have been yard weaned, with an excellent temperament they were a pleasure to assess. Please note the successful purchaser may choose to leave the Angus x Angus/Herefords out of delivery.
