Assessor Comments	Bred from self replacing Angus herd "Emu Springs". Surplus to breeding requirements, generally some of the later drop heifer calves. Present in store to forward store condition. Early stages of winter coat. majority weighed 260- 300kg at assessment. Aprox 5 head with white under flank / belly. approx 5 head old pink eye scar very faint. Raised in mobs of 200 + will thrive given the opportunity, as in the past with success. Medium maturity pattern, ideal types to background for domestic trade or feedlot.
