Notable Traits	Traits 5 Head Slight blue eyes not active
Assessor Comments	This is an outstanding draft of steers all weighed between 260-370 kg in which there are 600 in the run to be sold as 6 even runs out the gate. These steers have been in containment pens on grain ration which will make for a very easy transition into any other feedlot or would still adjust back into a grass program with all the hard work having been done and a large tail being removed from mob. This consignment of steers in the majority have been in containment for 8/9 weeks. The Yammatree cattle are highly sought after by several major feedlots in the Eastern States and have a great reputation for their very good doing ability. Very very hard item to buy in these runs in the present environment.
