| Assessor Comments      | Another Excellent quality draft of "Yammatree" heifers all weighed between 260-370 kg in which there are 500 in the run to be sold as 5 even runs out the gate. These heifers have been in containment pens on grain ration which will make for a very easy transition into any other feedlot or would still adjust back into a grass program with all the hard work having been done and a large tail being removed from mob. This consignment of heifers in the majority have been in containment for 8/9 weeks. The Yammatree cattle are highly sought after by several major feedlots in the Eastern States and have a great reputation for their very good doing ability. Very very hard item to buy in these runs in the present enviroment. |                          |         |
| Assessor               | <b>James Tierney (Level 1 Accredited)</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                          |         |
