Assessor Comments	The Brooklyn Steers are an outstanding line of weight for age steers ,with the potential to meet any market you may want . These steers are doing 1.2kg a day since weaning . they will slow due to the week of cold weather in front of them so i've said they only do 1 kg a day. They are running on an Oat Crop so should be on the do . Purchase's can link in with the Gundagai weaner sales of the week ahead if they want to fill loads etc . These steers are By the Highly selected Bongongo and Hardhat Angus Sires , showing great growth and Bone for there age . I highly recommend these steers going forward .
