	Overall heifers handled very well when moved through the force, race and crush at assessment. They did have a bit of run in them when let out into a large back yard for photos. Once they had a little run and settled back down they stood in the mob together and were calm and content.

Notable Traits	Traits 1 Head Old blue eye scarring in one eye only			
Assessor Comments	On offer is a very good quality line of 46 NSM heifers of the Clout Family. Heifers present evenly, with good confirmation and are in excellent condition for joining. They would be a welcomed addition to any Angus breeding operation. Vendors cattle have always been good performers, so they would also be well suited to grow out for any feeder or domestic markets. Heifers will continue to grow out into nice types as mature females and have plenty of genetics of their side.
