Assessor Comments	On offer is 19x19 Bongongo Angus heifers with their first calf at foot. Quality outfits that are backed by 100 years of Angus breeding and with their whole lives ahead of them. Calves are by high indexing bulls that were put in as a back up in an AI group. Heifers are displaying nice maternal traits and good mothering ability. This young group of females will continue to mature into a good run of working moderate cows that will be fertile and productive, 2 driving factors of the Bongongo cattle. This is a great opportunity to secure young breeding cattle from the studs commercial herd that would not normally be marketed. Please note the 2 lines of heifers and calves offered are filmed in as one lot and will be split at delivery as eartags are recorded. For any further information please call assessor.
