Handled With	Cattle are well handled and displayed good temperament whilst put through the entire process of assessing. Nice quiet cows.		
Assessor Comments	Outstanding quality line of 29x29 2nd calvers. Cows are in prime condition and still doing an excellent job on their calves at foot, they have big bags of milk and displaying strong maternal traits. These young females certainly tick the box when it comes to fertility, only being 3yr old on their 2nd calf and shaping up to get back in again heading into spring. Vendor has marked calves at assessment and all animal husbandry practices are up to date. These units are a credit to the vendor and a great example of the Angus breed, therefore would be a great addition into any breeding operation given their genetic merit.
