Heifers were good to handle in the yards. They need to be slowed through gates but were fine to block. Some heifers were agitated in the crush when mouthing but settled well.

Notable Traits

	Traits
2 Head	Old blight scarring one eye

Assessor Comments	Offering 54 Angus & Angus Cross Feeder Heifers. The heifers were 414kg live at assessment after a full overnight curfew off feed and water. The heifers are a mixture of vendor bred and purchased in and were PTE from the Longreach Vet Clinic. These heifers were weighed into feeder range from 360kg to 520kg and will load on two decks. Overall, a tidy line of decent quality feeder heifers that are PTE and ready to go the feedlot. Please note 2 heifers noted with light old blight scarring in one eye.
