Assessor Comments	97 Black Santa weaner heifers that average 223kg at delivery. Based out of a Santa, Charolais, Brangus and Brahman herd of cows, and sired by Rockingham Santa/Angus and a small % of Brangus bulls these steers are good performers on grass and are ideally suited to background to heavier feeder weights future breeders. Buyers please note 31 hd branded family mark- no difference in heifers. A % of heifers have been mustered last week and weaned off cow and the remainder have been weaned for 2 months and have been out on flood out country and will remain in yards on GQ hay until delivery. Heifers are a pleasure to handle in both the yards and paddock. A large compensatory gain on offer for the purchaser with plenty of frame to pack on the kilos quickly given the opportunity. Vendor also has 2 lots of steers and another lot of heifers in this same sale.
