Quiet: 39 head Slightly Stirry: 5 head	Quiet: 36 head Slightly Stirry: 8 head	Temperament not assessed in Paddock

Cattle were great to handle moving well through the yards. They loaded easily into the force, race and crush. A small % were agitated while mouthing and, while on the scale platform or when pressured. The heifers relaxed quickly once pressure released and they re-joined the mob. A few became nervous when pressured in the holding yard. Please view photos and videos

Handled With	Bikes , Horses
Assessor Comments	A quality line of EU Angus and Angus cross yearling heifers. Ideal feeders for the top end domestic market, or replacement breeders. Showing good bone and growth for age. 10 hd mouthed, cattle will deliver as 100% milk teeth. The heifers are fresh in the coat and moving forward. All sired by angus bulls, with approx 27 showing angus/angus traits with the balance being angus with some santa influence. They carry a great reputation and will perform well given the opportunity. One scurr noted, one with a slight blue eye (not detrimental) and 2 with a red tinge to the coat. Please view photos and videos to satisfy Angus content. Note: Vendor has 2 other lots in this sale.
