Quiet: 38 head Slightly Stirry: 2 head	Quiet: 34 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

Cattle were great to handle moving calmly through the yards. They loaded easily into the force, race and crush. A small % were nervous while mouthing and, while on the scale platform or when pressured. The steers relaxed quickly once pressure released and they re-joined the mob. Please view photos and videos

Handled With	Bikes , Horses
Assessor Comments	A quality line of EU Angus and Angus cross yearling steers. Ideal feeders for the top end domestic markets. Alternatively, grow on to heavy feeders or finish to quality bullocks. Showing good bone and growth for age. 12 hd mouthed, cattle will deliver as 100% milk teeth. The steers are fresh in the coat and steaming forward. All sired by angus bulls, with approx 24 showing angus/angus traits with the balance being angus with some santa influence. The steers were great to handle through the process with a small % nervous in the crush while weighing but fine in the mob. They carry a great reputation and will perform well given the opportunity. Noted 2 steers with a red tinge to the coat and 2 with slight blue eyes (not considered detrimental) Please view photos and videos to satisfy Angus content. These steers have paint on the loin. Note: Vendor has 2 other lots in this sale.
