Quiet: 17 head	Quiet: 17 head	Temperament not assessed in Paddock

With handling practices from an early age these Heifers worked well through the assessment process, quiet and walked freely to the weigh box and walked away to their mates. No concerns with these Heifers

Handled With	Horses , On foot , Vehicles
Assessor Comments	Truely a nice even draft of Heifers, a credit to the Vendor on breed quality and temperament. Nice slick coats, healthy and properly weaned. These heifers are ready for any situation, either as backgrounder feeder's or replacement breeders down the track. Bred from quality bloodlines selectively picked on breed type and milk, these heifers are showing all of that. I don't think you would be disappointed with having these heifers in your paddock. These Heifers are in a tick free area so no movement restrictions. This vendor also has 19 quality steers in same auction.
